SUMMARY

As a backend developer fresher, I am a highly motivated and passionate individual with a strong desire to excel in the field of web development. With a solid foundation in programming and problem-solving skills, I am equipped to contribute to the development of robust and scalable web applications.

PROJECTS

Infolekha
📅 04/2023 - Present   📍 amravati

It is the school college institute finding platform near you with google location APIs.

- here we display a school college and institute from your city, With its feature, we reduce the search time of students by 80%, and they are efficiently able to find the best school and colleges for them
- **The technology used:-   laravel, Jquery, google autocomplete APIs, and google current location APIs**

EMI Locker
📅 01/2023 - 04/2023   📍 amravati

This is a remote mobile device locker for mobile sellers for a customer who takes mobile phone on EMI

- here we use the EMM(enterprise mobility management) to set the device policies
- In this project, my responsibility is to enroll the Android device to your EMM with minimal time
- for the enrollment process, I use the QR provisioning to enroll the Android device with our EMI, this provisioning reduces the whole EMI locker setup timing by 97%
- for Android device management, we use the Android management API from GCP(google cloud platform)
- **The technology used:-   Django, Jquery, Android management APIs from google cloud and google play store EMM**

Gesture control system
📅 11/2021 - 04/2022   📍 amravti

It controls whole system by hand gesture and from hand moment.

- it going to change the touch screen trend and avoiding unwanted touching at a public system like ATMs.
- here my resposeblity to produce the hand gesture snapshot and mouse
- **The technology used:-   python, opencv, meadiapipe, autopy, numpy**

EXPERIENCE

Backend Developer
webmedia software solutions.

📅 12/2022 - 06/2023   📍 Amravati,maharashtra

It is a med level software company with dedicated software teams and good work ethics

- here I can learn Laravel, payment gateway, cloud APIs, and a lot more

Internship
Jumbo Eats

📅 06/2022 - 08/2022   📍 amravati,maharashtra

It is online food delivery company who manage the pretty good number of restaurants in amravati

- here I learn basic Python and Django
